He asked what she contributes that change in number of employees she supervised as the city population did not significantly change.

Arlene Kemp, Acting-Director Public Works stated that the City of Orange sold its Water System to East Orange, and approximately 30 of the employees were transferred to East Orange at that time.

Councilman Marable stated with that being said does she consider her current situation as being understaffed.

Arlene Kemp, Acting-Director Public Works stated that she believes she is under staffed, due to the fact that the skill sets are now different, i.e. some previous employees were Masons, Plumbers, Carpenters etc. and they had different skills. She feels that the skill set is not in place today. She went on to give an explanation of how the skill set affects the way the town is viewed. She stated that the workers today cannot replace any of the masonry work if repair is needed, previously they were able to replace not remove this work as it is done today. She stated that she is currently putting a plan together to bring a licensed Mason to the City to train labors with this skill as not to hire out and keep Main Street looking good.

Councilman Marable questioned her on the fact that she was the Municipal Engineer for the City of Orange and the Municipal Engineer and Director of Public Works for the City of Orange simultaneously. He asked about her timeframe working as a Civil Engineer for Port Authority as it came under the umbrella of her business. He asked her is that something that she is currently doing.

Arlene Kemp, Acting-Director Public Works stated that she is too busy and will be dissolving the business.

Councilman Marable stated that he was not aware of her previous employment history with the City of Orange and asked her to explain.

Arlene Kemp, Acting-Director Public Works stated that she worked with former Mayor Bob Brown and they had healthy disagreements. She stated that the former Mayor stopped listening to Professionals and started listening to other people which caused their problems. She stated that things came to a head when he hired someone that was inappropriate for a position.

Councilman Marable asked her did she leave the City in 1994 because of this disagreement or relationship with Bob Brown.

Arlene Kemp, Acting-Director Public Works stated yes and that she came back when Mims Hackett was elected and asked her to do so.

Councilman Marable stated that he had heard some negative statements surrounding her previous history with the City of Orange; however, he has had nothing but a positive experience with her and would be voting for her.

Council President Perkins called on Councilman Morton

Councilman Morton stated that he had already spent time with her regarding the interview process. He stated that he did, however, have concerns regarding her 35 employees. He asked if she felt she had a good relationship with her team.

Arlene Kemp, Acting-Director Public Works stated yes, however, this is a change for them and they will get used to her management style. She stated that when her team hears that they are doing a good job due to her telling them to go the extra mile they will begin to do it without people telling them to do so.

Arlene Kemp, Acting-Director Public Works said that she is making them work a lot harder than they are used to and they will get used to it in a matter of time.

Councilman Morton said that he understands that change is hard for some people, especially these guys who have been hear for some time.

Arlene Kemp, Acting-Director Public Works asked which five.

Councilman Morton stated that one of the five that approves of you had come to his home on her behalf and when he told them of his concerns. He stated that the he thought the war that she was having with her troops was resolved; however, he is still getting quite a few calls and inquiries regarding her management changes. He stated that one of their concerns was that she does not come out on the streets and only sits in the office and dictates and is not concerned with the workers.

Arlene Kemp, Acting-Director Public Works stated that she has been told from some of her employees that the former supervisor never had anything to do with them. She stated that this was simply not true what they were saying.

Councilman Morton said that this is why he took the time to personally sit with her to get his own opinion. He stated that he believes she was doing a good job; however, his concerns were her previous employment history with Orange and her resume regarding time frames in relation to coming and going. He stated that due to the explanations provided tonight he has a better understanding of her previous history. He stated, however, that she should be concerned about her personnel issues.

Arlene Kemp, Acting-Director Public Works stated that she has meet with her team twice to discuss any issue.

Arlene Kemp, Acting-Director Public Works stated that when the men in Public Works complains to the council they have to understand that difference in the way the streets and parks look depend on how hard the employees are working, she stated that she cannot hire anyone new and everyone has to work. She stated that she wants the best for the residents of Orange

Councilman Morton stated that he agrees, however, the key is that people tend to work better when they like you and will go the extra mile. He asked her to throw a little sugar at the men in terms of praise and perhaps they will go a bit further in their jobs.

Arlene Kemp, Acting-Director Public Works stated that she is doing that. She stated that her people are telling her was never done before. She stated that she was not sure where he is getting this feedback She stated that she has made it a point to give praise to her team. She gave an example of when dignitaries were in the City and they had a schedule tour route and they went off the designated route. She stated she was very impressed with the streets that were not on the route and immediately called her team to thank them for a job well done and expressed to them how proud she was that they had anticipated her needs and the fact that they went above and beyond the call of duty.

Councilman Morton stated that he would contact the people and that he is willing to come with them to her office to discuss the issues.

Arlene Kemp, Acting-Director Public Works said that she was guessing.

She stated that she gets upset every time she rides down South Center or North Day Streets due to their condition. She stated that she believes the City needs a working Public Works Director. She stated that she does not need the City to have someone who is not out in the streets. She stated that she does not believe the City can afford to have another Public Works Director that does not communicate with the workers. She stated that her main concern is that there is work that needs to be done in the City and it is not getting done. She stated that she just got a letter from a resident that Orange should be named Garbage City. She stated that on Main Street by Ocean City garbage has been sitting in front of the building for a few weeks. She said did not call because it was not her ward, however, as the Public Works Director she feels that Ms. Kemp should ride down Main Street every once in awhile to see what needs to be done and that is not happening. She stated that the compensation is good for a Public Works Director and this is not a job for someone who sits in the office. She stated that she was in Ms. Kemps office this week and was ignored.

Arlene Kemp, Acting-Director Public Works stated she was on the phone with the newspaper

Councilwoman Eason stated that sometimes they should go above and beyond and the conversation is not for debate as this is an interview. She asked her why none of her jobs lasted more than two years.

Arlene Kemp, Acting-Director Public Works stated that she was in Orange for six years and she was in East Orange for eight years, she stated that she was not sure where she was getting her information.

Councilwoman Eason stated that she works in a school district with a Principle who manages a staff of 90+ people and he is never in his office until after hours as he is hands on. Arlene Kemp, Acting-Director Public Works said that she was hired for two positions, Municipal Engineer and Director of Public Works. She stated that being in both positions limits her time to be in the field as she also has to be in the office to perform her Engineering duties. She stated that it is important for the city to be up to date in their state aid & Grants to get Stimulus Money. Her position as Municipal Engineer requires her to complete these projects. She stated that she was hired as two people with a two to Three year back log of work to handle.

She stated that her plans to build a team are to combine the groups of workers and have one team as all jobs will be done as a team. She stated that she will be assigning people by projects not by skill sets.

Councilwoman Eason confirmed that if a project is started that Ms. Kemp will assure that it is completed before they start something else.

Arlene Kemp, Acting-Director Public Works stated that would depend on what the project is and how many people are needed to continue the project.

Councilwoman Eason clarified a statement that Ms. Kemp will be a part time Engineer and a Part time Public Works Director.

Arlene Kemp, Acting-Director Public Works stated yes if that's the way you want to look at it or you can look at it as an overlap as most cities have the same overlap, i.e. East Orange.

Councilwoman Eason asked her about the painting of Brook Alley on her wall. She asked did she ever think that the City of Orange will get there. She wants to one day upgrade Brook Alley.

Arlene Kemp, Acting-Director Public Works said that anything can be done and it would depend on many factors.

He asked her if she really expected this to happen.

Arlene Kemp, Acting-Director Public Works stated no she does not and assumes that they will speak to a supervisor, who will then make her aware of the issues. She stated that she speaks to the Union representatives to question what is going on and for guidance. She stated that she tries to get the best picture as possible of any situation prior to addressing it with an employee.

Councilman Abdul-Rasheed stated she has been responsive to him. He asked her how she would rate the morale of the Public Works Department.

Arlene Kemp, Acting-Director Public Works stated it is difficult to rate, however, she stated that she believes the morale is 60-70% of the workers are pleased with the reorganization.

Councilman Abdul-Rasheed asked her does she write lot of grants as Acting Director and as the Municipal Engineer does she do a lot of paperwork.

She stated that she wants to change the mindset of the residents by doing little things like replacing lights and replacing windows and making repairs to iron fences, plant trees etc. These are things that do not require grant funds.

Council President Perkins suggested that perhaps they could have a clean-up day.

Arlene Kemp, Acting-Director Public Works stated that is being planned already.

Council President Perkins stated the Girl Scout would be willing to plant flowers to donate time and stated that it may be beneficial for her to take a ride around the City with the Council Members. She stated that she had already had conversations with her regarding what she was doing and stated that she is pleased so far and she has her support.

Council President Perkins called on Councilwoman Williams

Councilwoman Williams questioned Ms. Kemp's statement regarding Union workers and overtime. She asked why this was not based on seniority or was this based on the contractual decision. She thanked her for the beautification of the Park. She advised her to be aware that Lincoln Ave. School has some issues.
