

City Highlights

Students will pair body, math skills

Students in Orange's school programs will show off their mathematical skills today when they compete at Bell Stadium.

The inaugural TryMathlon 2011 is scheduled for 8:30 a.m. to noon inside the stadium, Bell Street. Approximately 200 first-through fifth-grade students within the district's four Summer Academy locations — Forest, Lincoln, Park and Rosa Parks — will compete in team and individual math-skill exercises, including grade-level relay races.

Residents will enjoy 'Taste of Orange'

Residents can learn about the cuisine the city has to offer Saturday when "A Taste of Orange" is presented inside Monte Irvin Orange Park.

Visitors can sample foods from eateries throughout Orange at discounted prices for the event, which is scheduled for noon to 5 p.m.

Activities will include entertainment from Hunter Hayes, Colonel Abrams and Kenny Bobien.

The event marks the beginning of Restaurant Week, when city eateries show off their menus, with many offering discounts through Aug. 5.
