

ORANGE CHAMBER HOSTS CAR SHOW

By Dhiren Shah

August 8th, 2009 was good for many businesses near the Tony Gallento Plaza in Orange. The owner of Mazi Dogz, a new fast food restaurant located at 351 Main Street was very happy to get more business due to the car show. People were walking in and out.

The car show is a good start for the Orange Chamber of Commerce. There were some vintage cars, some old cars, and some modified newer cars like the Honda Civic. Axel Lopez of Metro Auto Electronics of Kenilworth, NJ said that they have rebuilt and re-modified a

Honda Civic. He also said that they teach that at their school.

Marvin Street of Avenel, NJ has brought his 1964 Pontiac GTO with 734,492 miles driven on the car. As per him, the engine of the car is the original engine and the body is also original. According to him, after 45 years, the car runs excellent.

Bella the Clown was there entertaining the children.

Mr. David Biagini answered my question about only 11 cars in the show, when he said, "A few cars already left."

The Orange Urban Enterprise Zone sponsored the show.
